

# MedXpert

Elevate Your Operations and Clinical Excellence with Our Integrated Digital Solution and Human expertise, All in One Subscription Package

MedXpert is the only tech enabled services that can manage inventory for both open and closed area with included clinical expert. Sustaining optimal practices require a significant investment of time and resources over the years. With MedXpert, evaluate and enhance your practices annually.

## Key benefits of MedXpert

### Take command and access your ADC fleet inventory from anywhere

**Quality Oversight:** Grant visibility to all members from any location within your facility.

**Dashboard Customisation:** Configure your personalised dashboard view and receive alerts for unusual behavior.

**Swift Inventory Optimisation:** Directly and instantly adjust your reorder/par/critical low levels through MedXpert.

### Elevated traceability for your narcotics

**Traceability:** Achieve a digital audit trail - capturing the detail for each Controlled Drug transaction.

**Easier investigation:** Convenient access to usage, returns, and discrepancies

**Replace traditional CD registers with a digital alternative:** Customisable and exportable hospital-wide.

### Clinical consultations

**Crafting narratives from data:** Assisting in comprehending your data and essential practices.

**Quantify for optimisation:** Establishing your baseline and identifying return on investment opportunities

**Prioritise what matters to you:** Minimise excess stock, stockouts, expired medications, and Controlled Drug dispensing.

## DATA INTELLIGENCE

Manages inventory from Omnicell ADC XT cabinets or handheld devices for hospital wards without ADC

## HUMAN EXPERTISE

Unlock insights with our clinical experts for better medication inventory management
